

Evaluations of courses/modules and study programs at University of Ljubljana (UL)

Drago KOMPAN

University of Ljubljana (UL)

23 member faculties
3 arts academies

UL employs approximately 6,000 higher education teachers, researchers, assistants and other staff

Approx. 50.000 students

Approx. 2.300 (Third cycle degree + Post graduate degree) students

6.000 employees (professors, researchers, assistants and other)

300 study programs (BSc and MSc)

University of Ljubljana (UL) and its members for more than three decades periodically analyze the effectiveness of the study in order to improve their quality

Self-evaluation is the original orientation in the educational activity gradually expand the overall operation of UL.

Self-evaluation process includes several activities:

- student surveys

- other surveys and studies

- monitoring of customer satisfaction

- continuous monitoring of the implementation of the study programs and their modification

- creation of quality reports and more

The quality reports include

The purpose of the report is the **monitoring and improvement in all areas** (sectors), and in particular the functioning of the quality system.

The indicators are collected annually, provides insight into individual activities and the monitoring of changes and the implementation of measures for improvement.

The **quality reports** (one of the reflection of a basic annual self-evaluation cycle) include:

- educational and research activities,
- questions of organization,
- basic working conditions,
- infrastructure,
- investments and maintenance of premises and equipment,
- development and artistic activities,
- international activities,
- library, reading room and publishing activities,
- information systems,
- human resources,
- science-teaching staff,
- performance of students working with users and international cooperation especially forms of care for quality.
- student services (tutoring, student council and Extracurricular Activities).

Since 2012, carried out a combined -Quality Report + Financial report

Other

Some UL Members have acquired international accreditations of study programs.

Quality assurance committees are active both at the university and at the UL Members.

The development of the quality assurance system is geared primarily towards defining some additional elements (monitoring the employability of graduates, employees' satisfaction, development of study programmes' quality assessment)

establishment of the link between the instruments with the decision-making and improvement processes

fakulteta

Biotechnical faculty (BF)

Employee 566 (in year 2010: =600 employee)

(70 % education and research staff)

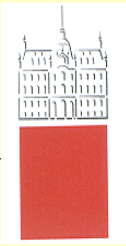

7 departments (A, B, G, KA, L, Z, Ž)

Approx. 3000 students

9 BSc programs

+4 Higher education programs

13 MSc programs

Employee 125 (in year 2010: =145 employee)

(education 35 %,

research 35 %,

expert and extension work 30 %)

1 BSc program

1 Higher education program

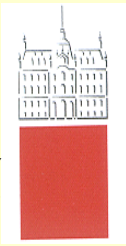

2 MSc programs

**National breeding programs (BVE, GVE) for Cattle, Sheep,
Goat, Pigs, Horses,**

Public service for Animal Genetic Resources

National LAB for milk analyses

Univerza v
Ljubljani

Biotehniška
fakulteta

Biotechnical faculty (BF)
Animal Science Department

Participation in lectures at other universities in the region

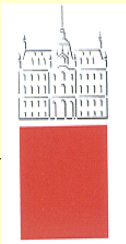

Organization of trainings, courses, demonstration events for extension service and advisers, for technicians and farmers (LLL)

Organization of seminars, symposia, conferences etc. (on national and international level)

Cooperation in international and regional projects

Cross-border cooperation

Each of these activities is also trying to assess the quality of performance and quality of content and user satisfaction

Biotechnical faculty (BF)

BF -Commission for self-evaluation of the quality of studies:

- notes weaknesses
- proposed measure/recommendation
- include proposed activities in the program for next year
- monitor the proposed measure

where the Commission receives information?

- survey among students
- survey staff
- other relevant actions

Commission prepare the **report to BF-Senate** determine and adopt in this respect the measures necessary changes

Commission report to University of Ljubljana
