

# Survey on LL potentials - BOKU

Marion Ramusch, Marija Zunabovic,  
Gerhard Schleining

# Interviews

## Performed with 6 Departments

- Dept. Food Science and Technology
- Dept. of Landscape, Spatial and Infrastructure Sciences
- Dept. Sustainable Agricultural Systems
- Dept. Water-Atmosphere-Environment
- Dept. Crop Sciences
- Dept. Nanobiotechnology (no reply)

## Education topics at BOKU

- Agricultural Engineering
- Rural Land Management → Case Study
- GIS-Introduction
- Food Safety
- Quality Management
- Food technology

<b>Educational Name</b>	<b>Type of Programme</b>
Agricultural engineering <i>(in development)</i>	1,2,3
Rural Land Management	2
GIS- Introduction (5 days)	3
Food Safety	3,4
Quality Management	3,4
Food Technology	3,4

- 1 Postgraduate specialist studies (PSS) (90 ECTS or more)
- 2 Intensive course (60 ECTS)
- 3 Lecture (5 - 60 ECTS)
- 4 Workshop (until 5 ECTS, for example 1 day)
- 5 Other

## Target Group and preferred time

- „Interested in acquiring new knowledge within a profession“  
and „Interested in personal improvement“
- Mainly on holidays and weekends due to time constraints of teaching staff and room availability

## Additional experts needed?

- Depends on the content and duration of the LL programme
- Correlation between ECTS amount and required additional support
- Evaluation of programmes only with support of BOKU quality management

# Development time for programmes

<b>Educational Name</b>	<b>Type of Programme</b>	<b>Time needed for development</b>
Agricultural engineering	1,2,3 ( <i>in development</i> )	3 years
Rural Land Management	2	2 years
GIS- Introduction (5 days)	3	2 months
Food Safety	3,4	6 months
Quality Management	3,4	6 months
Food Technology	3,4	6 months

## Administrative support needed?

YES! → During the whole process:

- Valuation procedure
- Promotion of the programme
- Organisation and administration of programme

# THANK YOU!
